

Transform any floor to your taste.

Neoflex™ is prefabricated rubber flooring made of polymerically bound recycled and synthetic rubbers. Neoflex™ 700 Series can transform any indoor area into a dynamic space. Made of 70% Mixed Colored EPDM Rubber and 30% Recycled EPDM Rubber, it is a bright, compelling flooring solution that contains a high percentage of recycled material. Ideally suited for high traffic areas, you can count on Neoflex™ 700 Series flooring being safe due to its natural anti-slip properties.

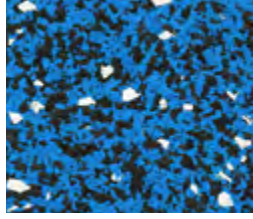

| Characteristic | Test Method | 700 Series |
|--------------------------------|--------------------|-----------------------------|
| Thickness | | 3 mm to 10 mm |
| Roll Width | | 1.20 m |
| Density | | 1,200 kg/m ³ |
| Resilience | DIN 18032-2 | 42% |
| Tensile Strength | DIN 18032-2 | 1.31 N/mm ² |
| Tear Strength | ASTM D 624 | 9.7 N/mm |
| Taber Abrasion | ASTM C 504 | 0.46 gm |
| Shore Hardness | ASTM D 2240 | 65 |
| Remaining Indentation | DIN 53960 | 0.04 mm |
| Noise Absorption | EN 21040 / ISO 140 | 13 dB (4 mm) |
| Stainability | ASTM D 543-95 | |
| | Alcohol | No Change |
| | Ammonia | No Change |
| Coefficient of Friction | ASTM D 2047-97 | Dry: 1.10 Wet: 1.03 |
| Slip Resistance | AS/NZS 4586:2004 | 48 Mean BPM, Class W |
| Thermal Stability | ASTM C 1026 | -40°C to 100°C |
| Flammability | EN 13501 | Efl or Cfl-s1 |
| Total VOC | ASTM D 5116 | < 0.3 mg/m ² /hr |
