

MAINTENANCE TIPS

Playflex™ or Decoflex™ surfacing is stain resistant. Foreign matter that comes into contact with either should be removed as soon as possible. We recommend the following procedures:-

Water Born & Miscellaneous Markings

TYPE OF MATERIAL	Acid, alcohol, alkali, blood, chocolate, coffee, cola, dye, fruit juice, glue, ice-cream, latex paint, milk, mustard, rust, soot, tea, urine and water colours
REMEDY	Sponge with a non film making mild detergent and cold water. Rinse thoroughly. High pressure jet wash with wide to medium wide jet spray.

Persistent Markings

TYPE OF MATERIAL	REMEDY
Chewing gum	Spray with freon aerosol & scrape off
Crayon, furniture stain	Sponge gently with dry cleaning solvent
Lipstick, metal polish	Sponge gently with dry cleaning solvent
Nail polish	Sponge gently with acetone
Oil paints	Blot immediately to prevent spread of material. Sponge gently with turpentine or paint remover. Re-sponge gently with non film making mild detergent and cold water. High pressure jet wash with wide to medium wide jet spray.
Paraffin wax, tar	Scrape excess off. Sponge gently with dry cleaning solvent.

Emulsified Markings

TYPE OF MATERIAL	Cosmetics, ink, shoe polish
REMEDY	Sponge with a non film making mild detergent and cold water. Rinse thoroughly. Sponge gently with dry cleaning solvent. Re-sponge gently with non film making mild detergent and cold water. High pressure jet wash with wide to medium wide jet spray.
